

LEED | Specified Building Products Corporation

Specified Building Products Contributing to LEED Certification Goals

Specified Building Products is proud to represent numerous manufacturers that have made environmentally-conscious design a priority in their product development efforts. Our products support the United States Green Building Council's mission for transforming the way buildings and communities are designed, built and operated, enabling an environmentally and socially responsible, healthy, and prosperous environment that improves the quality of life.

LEED (Leadership in Energy and Environmental Design) has become the cornerstone of sustainable design among building owners, architects, engineers and contractors. Several specific examples of products:

Product	Contribution	LEED Categories
McKeon Rolling Steel Door	Recycled Steel, Energy, Controlled Environment	Materials & Resources, Indoor Environmental Quality, Energy
Solatube SolaMaster Series	Solar Powered Daylighting	Indoor Environmental Quality, Energy
Garage Headquarters	Recycled Wood	Materials & Resources
